

Laboratory Research Technician (f/m)

The Evolutionary Ecology Research Group offers a position as

Laboratory Research Technician (f/m)

Specific tasks:

- Stable isotope analyses using a Thermo Delta V Advantage isotope ratio mass spectrometer;
- Preparation and documentation of samples;
- Maintenance of instruments in the stable isotope lab of the IZW.

Requirements:

- successful completion of an apprenticeship, preferably as a biological veterinary or physical laboratory technician or assistant (BTA; MTA, PhyTA);
- very good knowledge of English in word and writing;
- high motivation, creativity and flexibility;
- Readiness to the interdisciplinary and international cooperation;
- Knowledge and experiences in stable isotope analysis would be an advantage.

The position can be taken from the 1st of April, 2012 and is limited first of 1.5 years.

The reimbursement occurs to TVöD. The IZW is determined to increase the proportion of women in successful scientific careers and particularly encourages applications from qualified female scientists. Handicapped applicants will be preferred if equally qualified.
